Los baños de Margalida

THE SEA, THE SUN AND THE TRAMUNTANA.
WELLBEING, THE WAY IT WAS ALWAYS UNDERSTOOD

GRAN HOTEL
MARGALIDA

For centuries, human beings sought out the sea, water and climate to recover what time, effort or life itself had worn away. Before modern treatments existed, there were places. Banyalbufar was always one of them. Amid centuries-old terraces, the Tramuntana breeze and the Mediterranean, Gran Hotel Margalida revives that way of caring for the body: returning to the purest tradition.

"They say I always knew how to surround myself with people who found something here that was hard to explain: a place where the body rested, the mind grew still, and time seemed to pass differently."

A handwritten signature in black ink that reads "Margalida." The script is fluid and cursive, with a long, sweeping underline that extends to the right.

Building on that same legacy, we now offer a contemporary approach where therapeutic knowledge, mindful movement and hands-on treatments enhance the extraordinary restorative power this landscape has always offered.

NAMES.

8AM - 8PM

THE ALBERCA

Move without effort.

Water supports mobility, relaxes the muscles and helps the body regain a sense of lightness.

THE SAUNA

The power of dry heat.

Exposure to heat supports circulation and helps release muscular tension, preparing the body for rest and recovery.

STEAM ROOM

Breathe and release.

Steam helps humidify the airways, encourages muscular relaxation and leaves the skin softer and better prepared for further care.

ICE BATH

Cold to recover and activate.

Brief exposure to cold helps ease the sensation of muscular fatigue and provides an intense physical stimulus, particularly after exercise..

RELAXATION AREA

Recovery also takes time.

Rest allows the body to regulate its temperature, settle after heat or cold and complete the recovery process.
